Dear Sir,

Roof Top Safe Walk Ladders:

This has reference to your Letter No. INF/MICL/4100-80 dated 22.12.80 on the above subject.

We have been using your Ladders while working on roof tops for over a year. As desired by you, we are furnishing below the information with regard to the usage of the Ladder:

1. Earlier to procuring your ladder, we were using wooden planks for work on roof tops.
2. It was "cumbersome & tedious method, and enforcement was problem and it was a time consuming affair.
3. There were no accidents, as we are enforcing safety measures very strictly.
4. Your device is "quick apply" type and easy for use. Hence, we do not find resistance from users. Enforcement has become easier. The device is light, hence can be carried conveniently.

We have no hesitation <sup>and</sup> with further research & improvement, the device will be received very well in industries.

Thanking you, we remain

Yours faithfully,  
for Motor Industries Co., Ltd

*V. A. Gundappa*
